THE DOT NARRATIVE

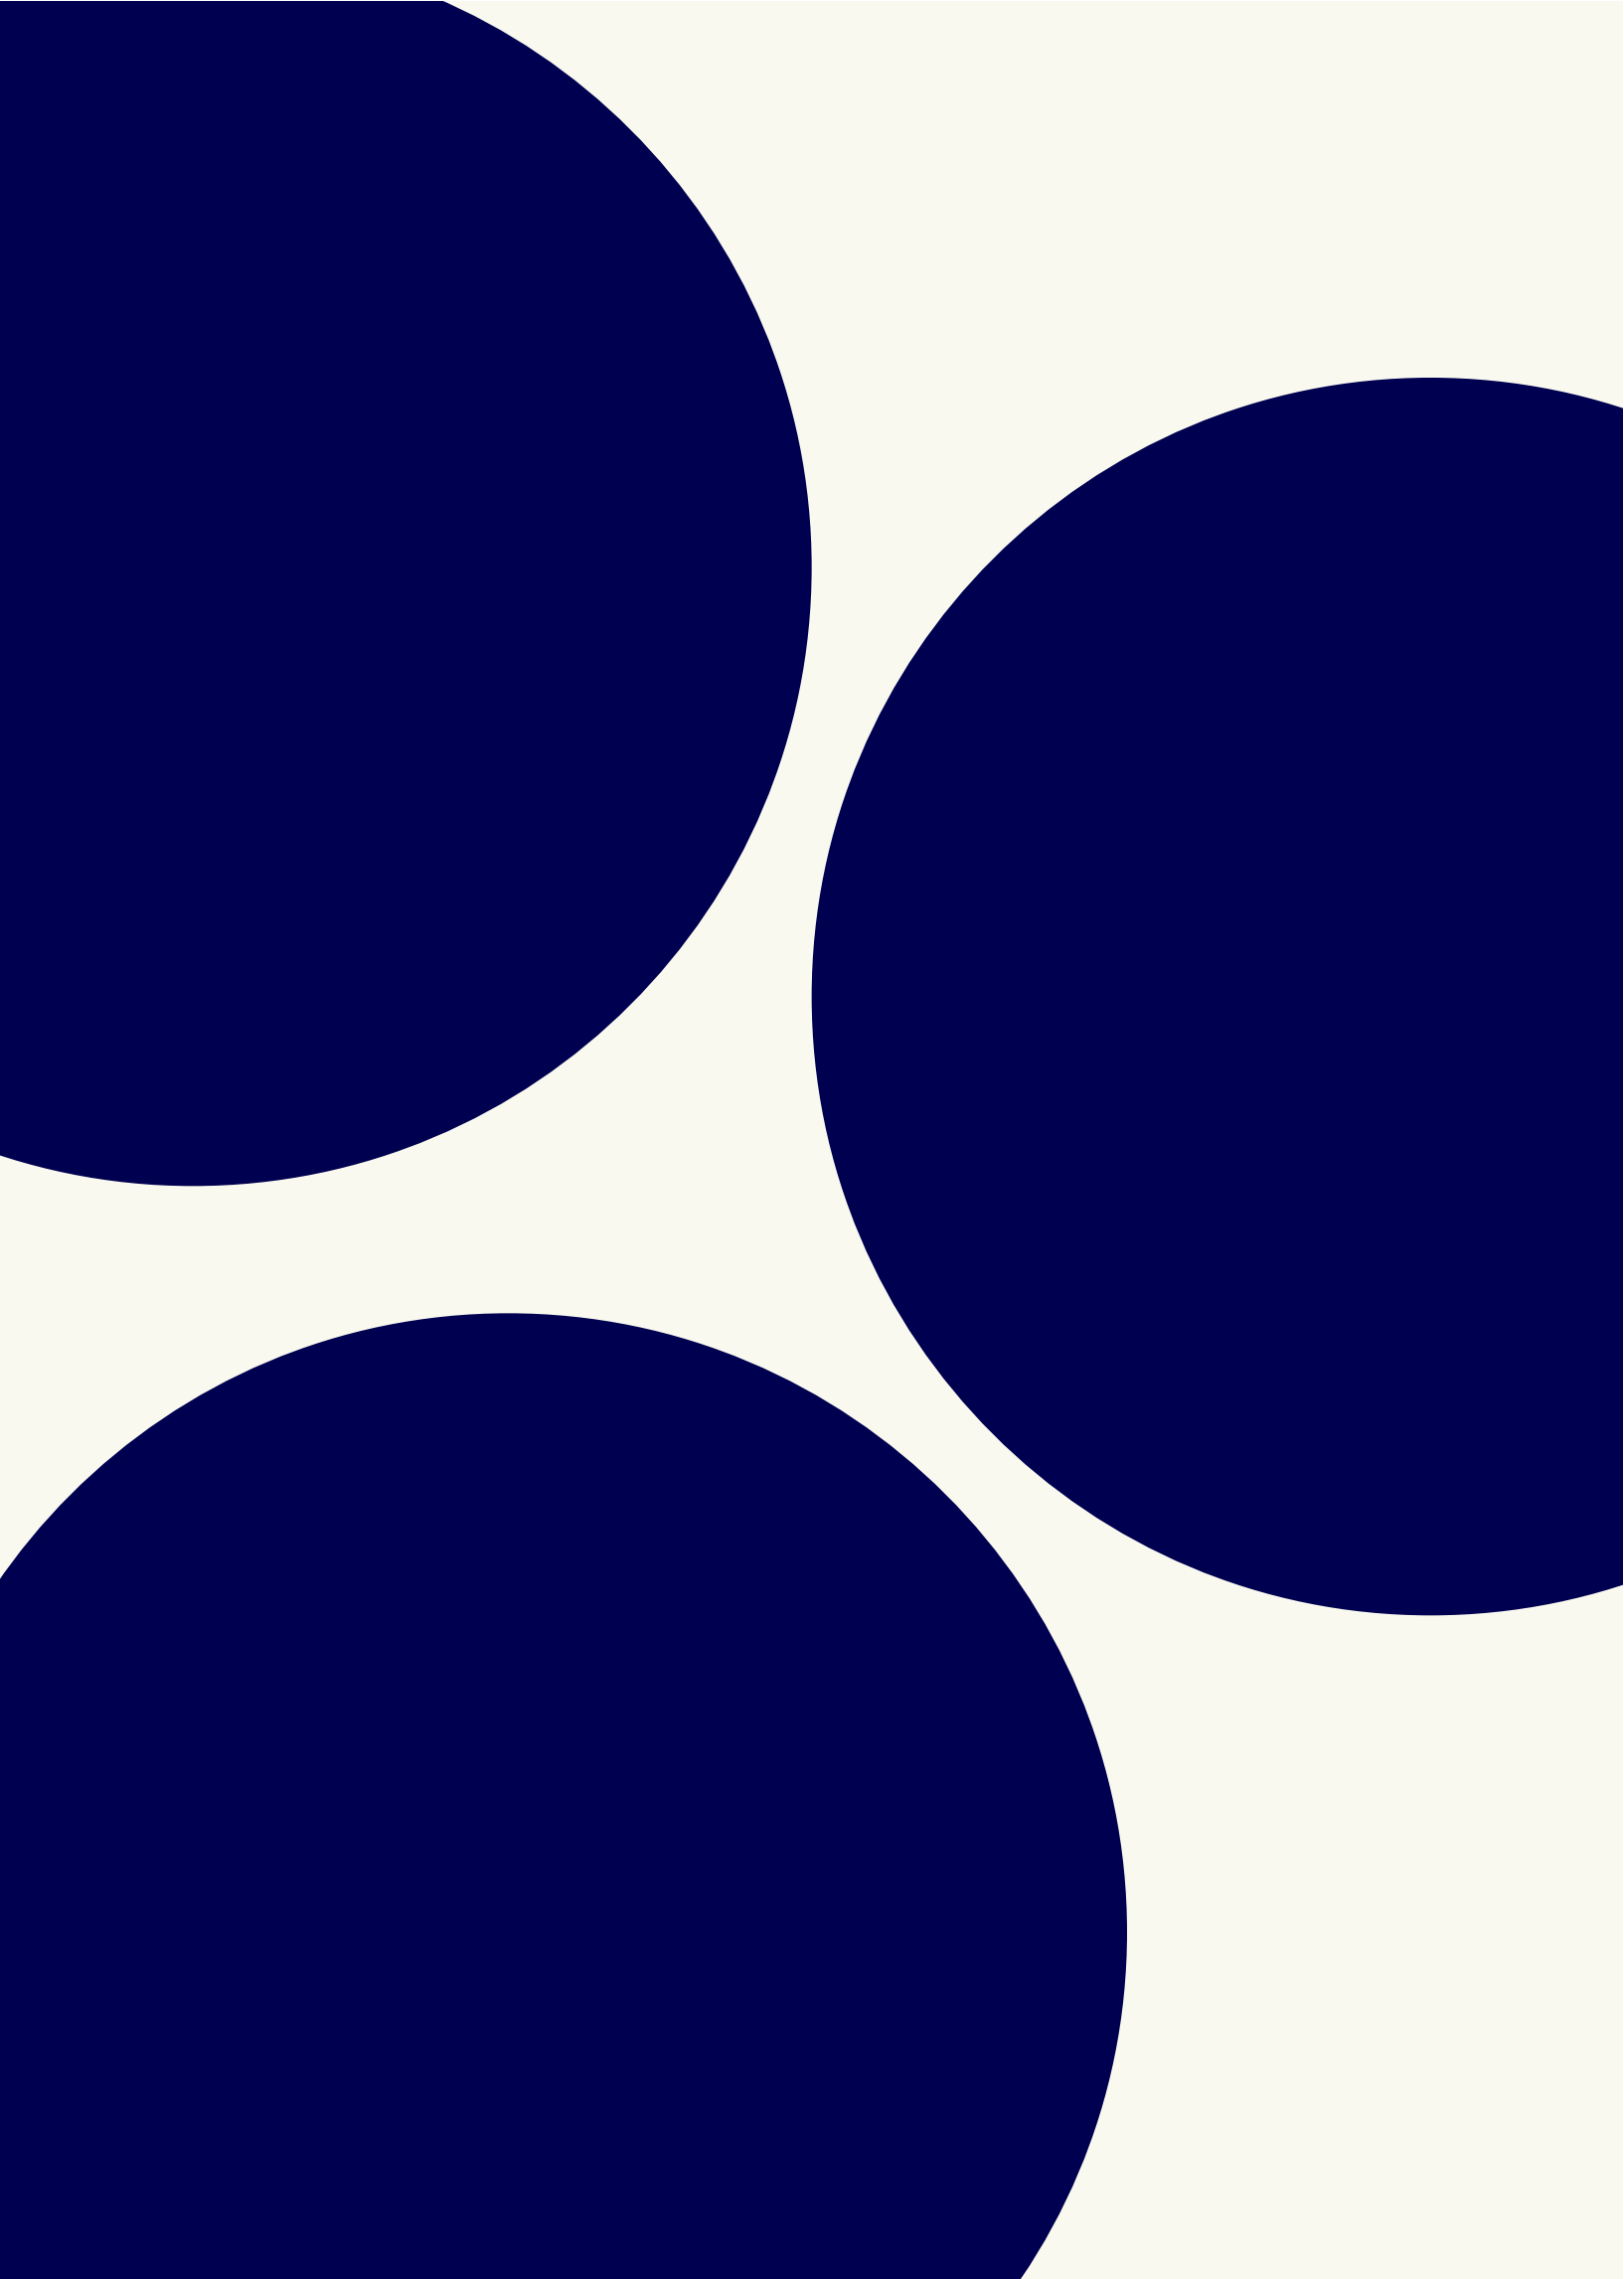

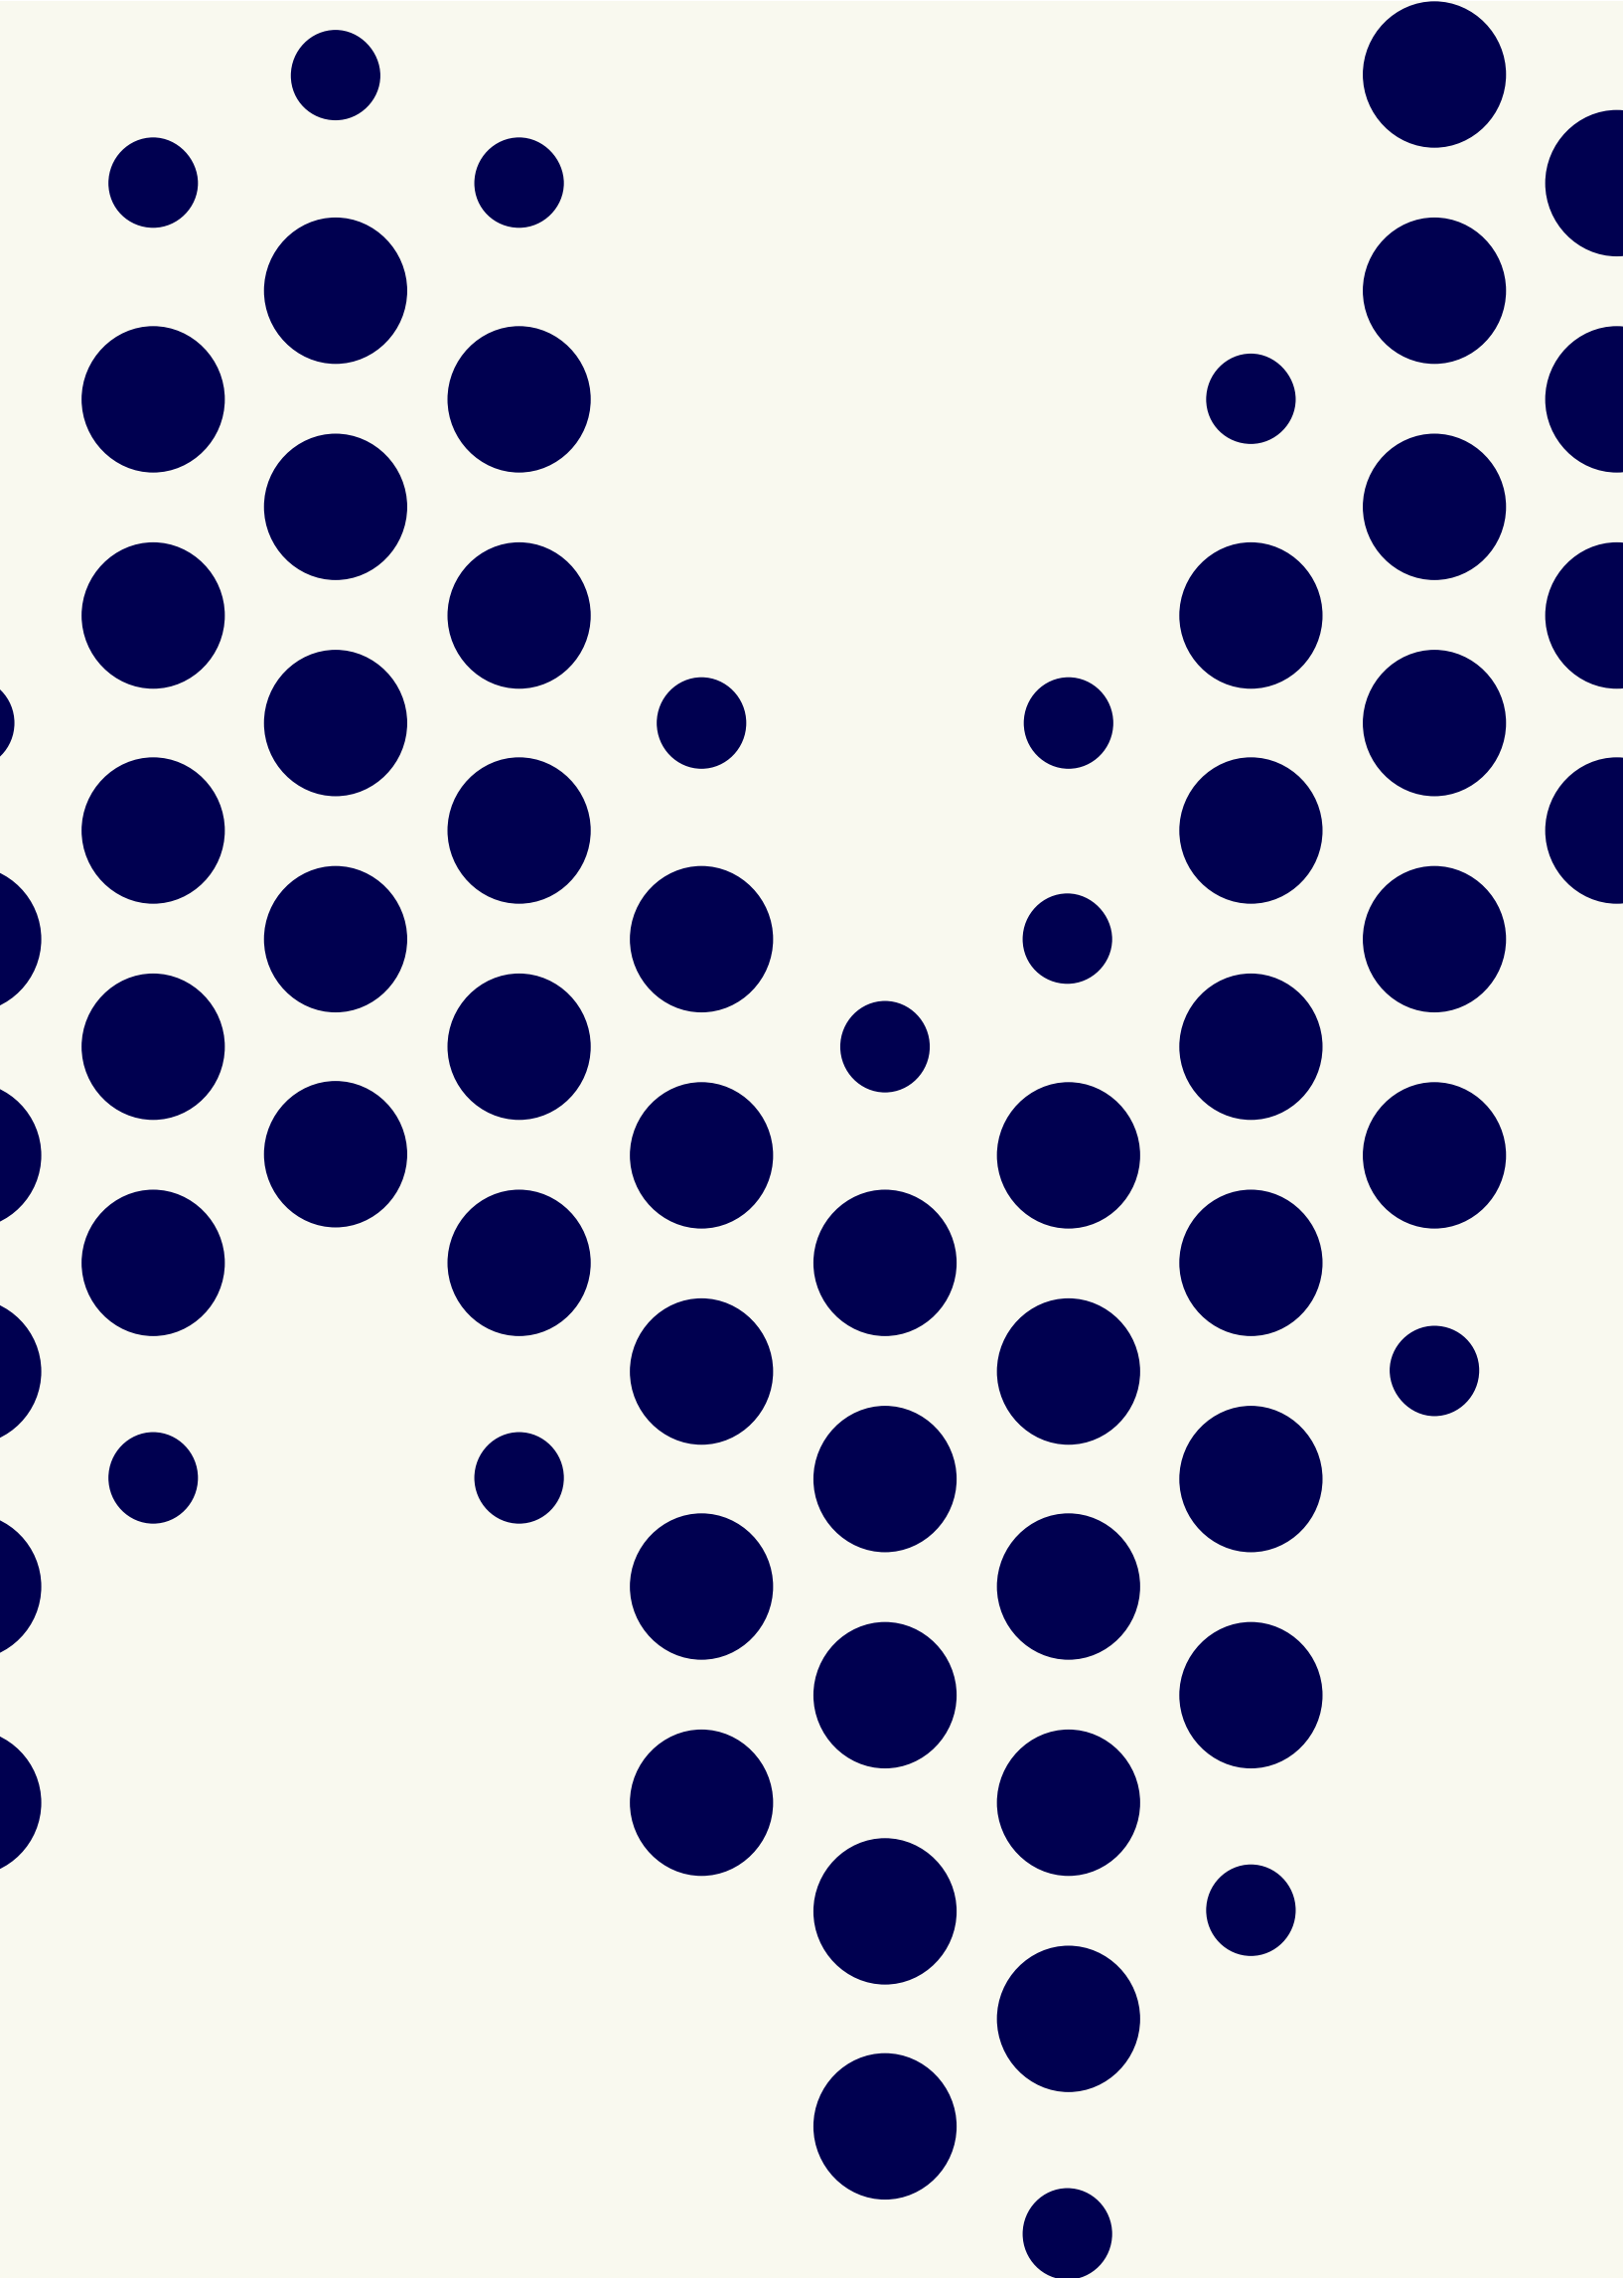

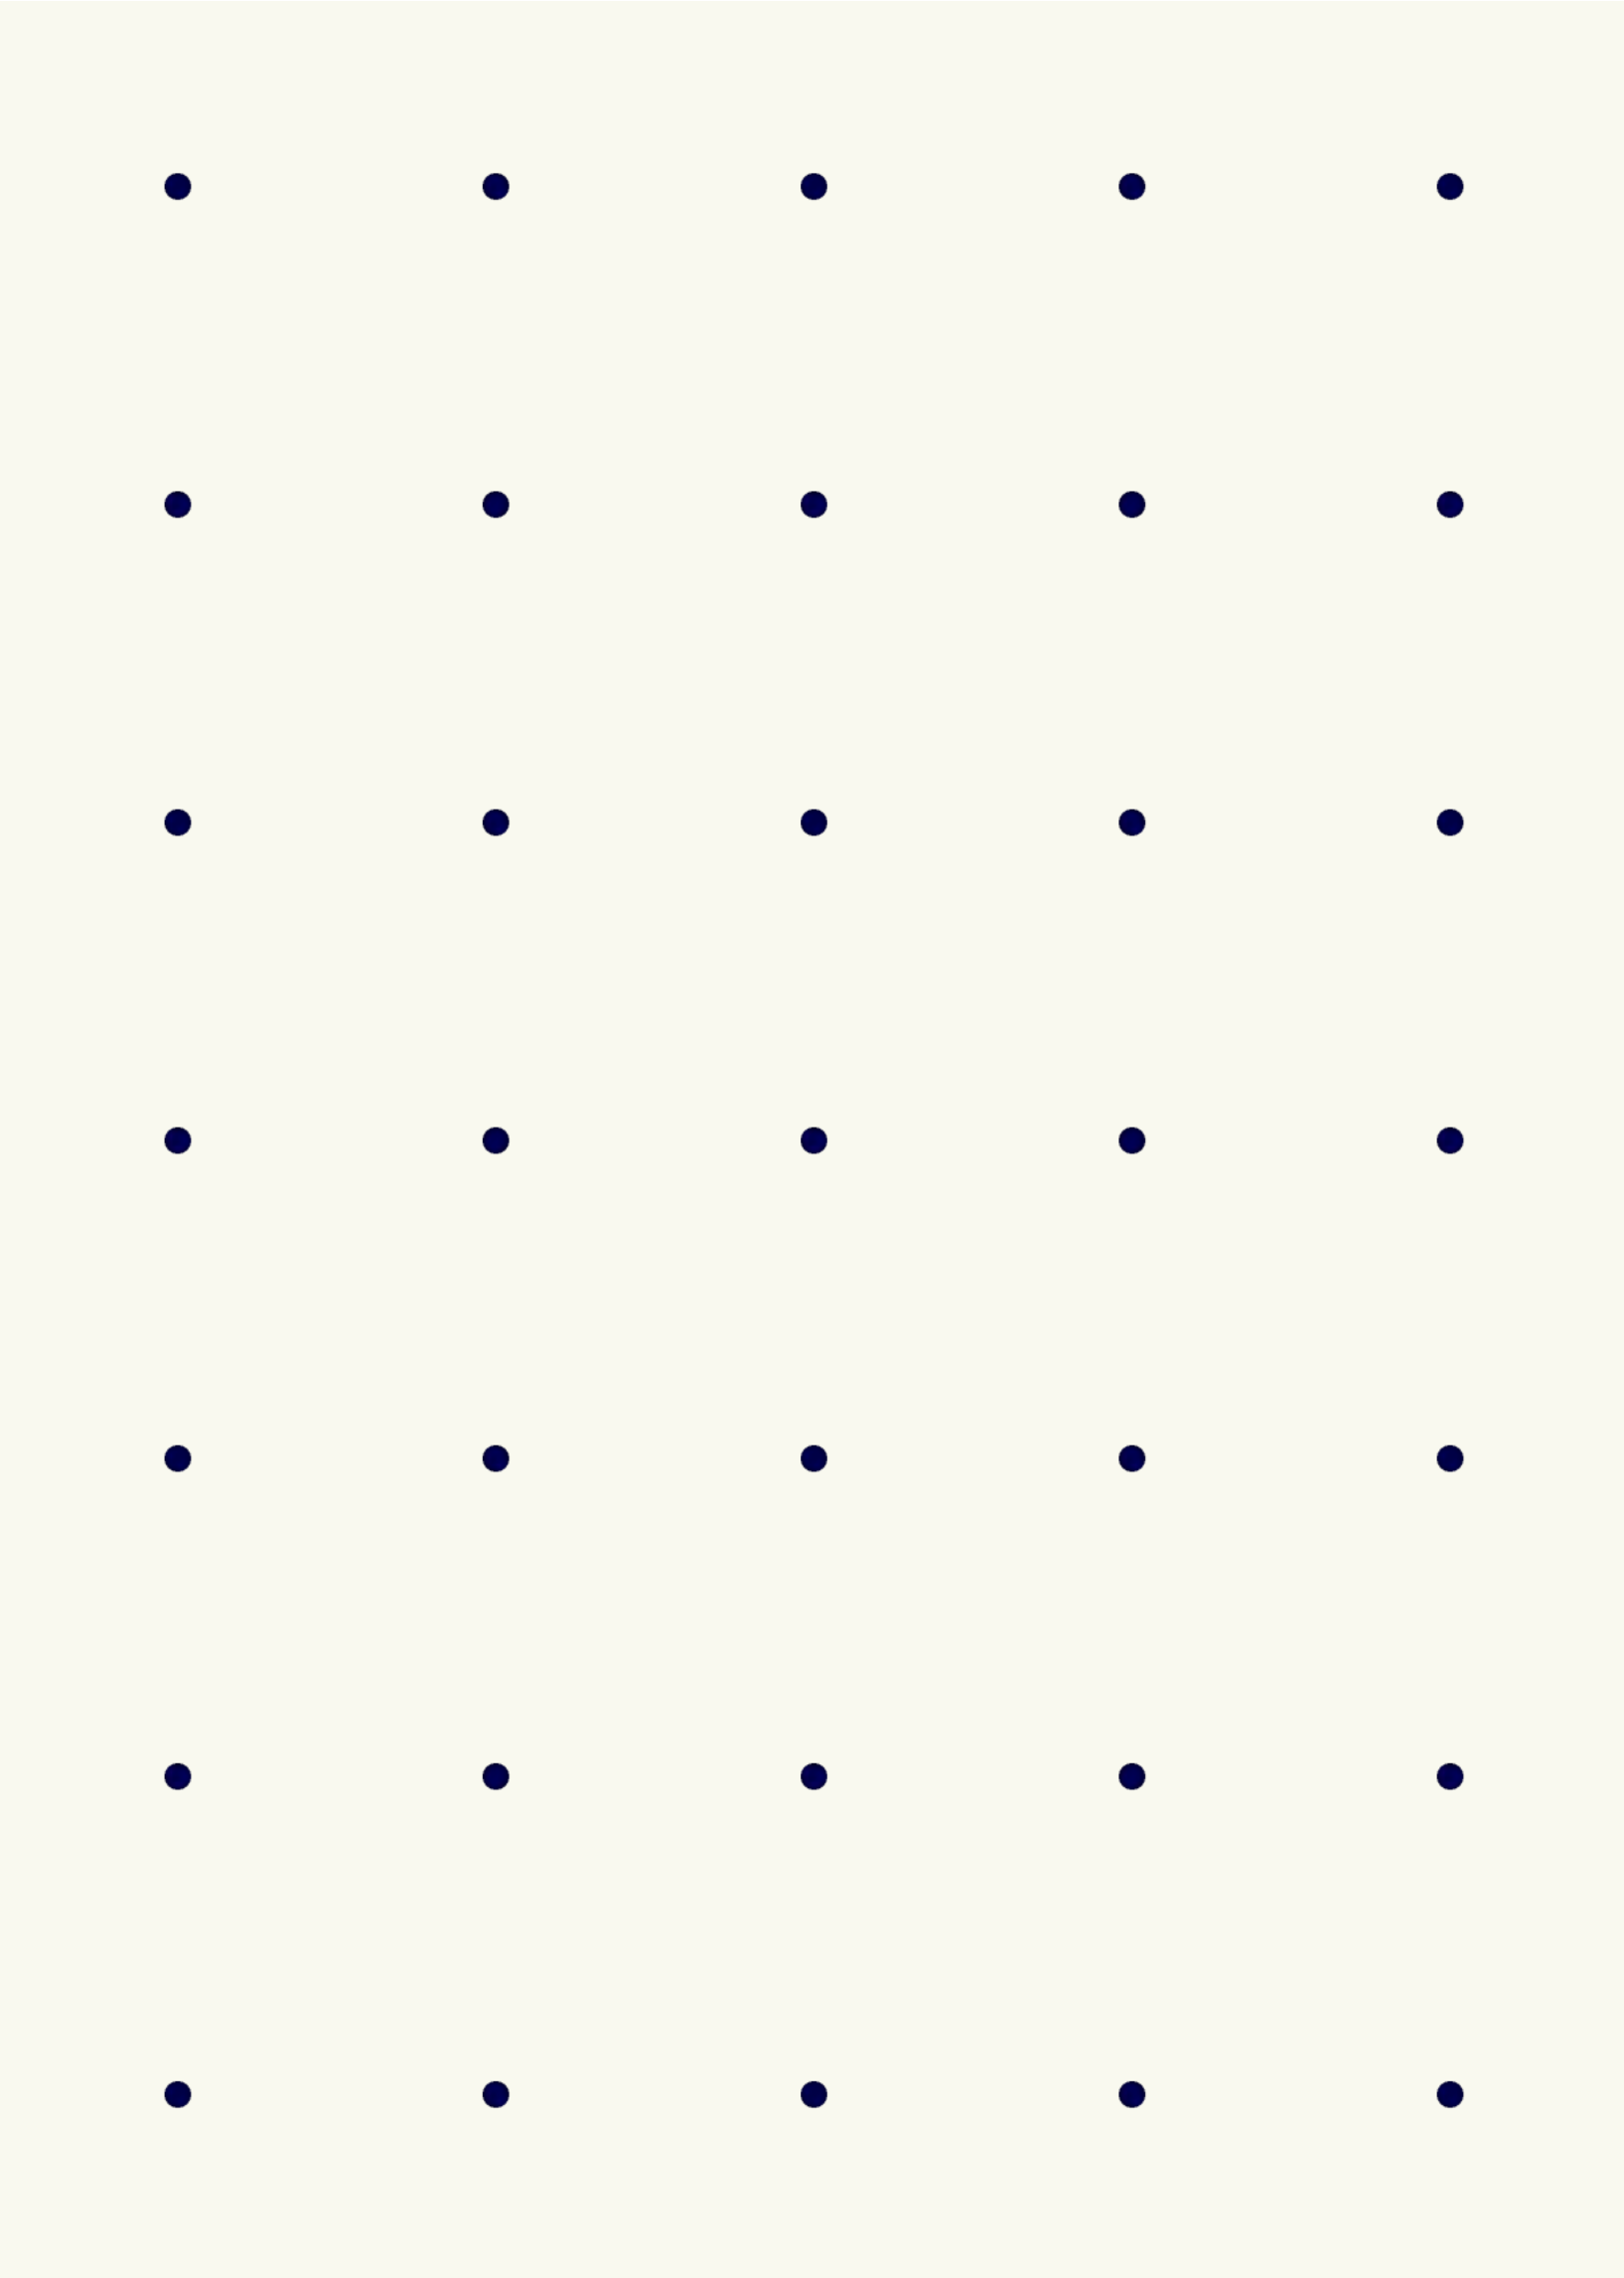

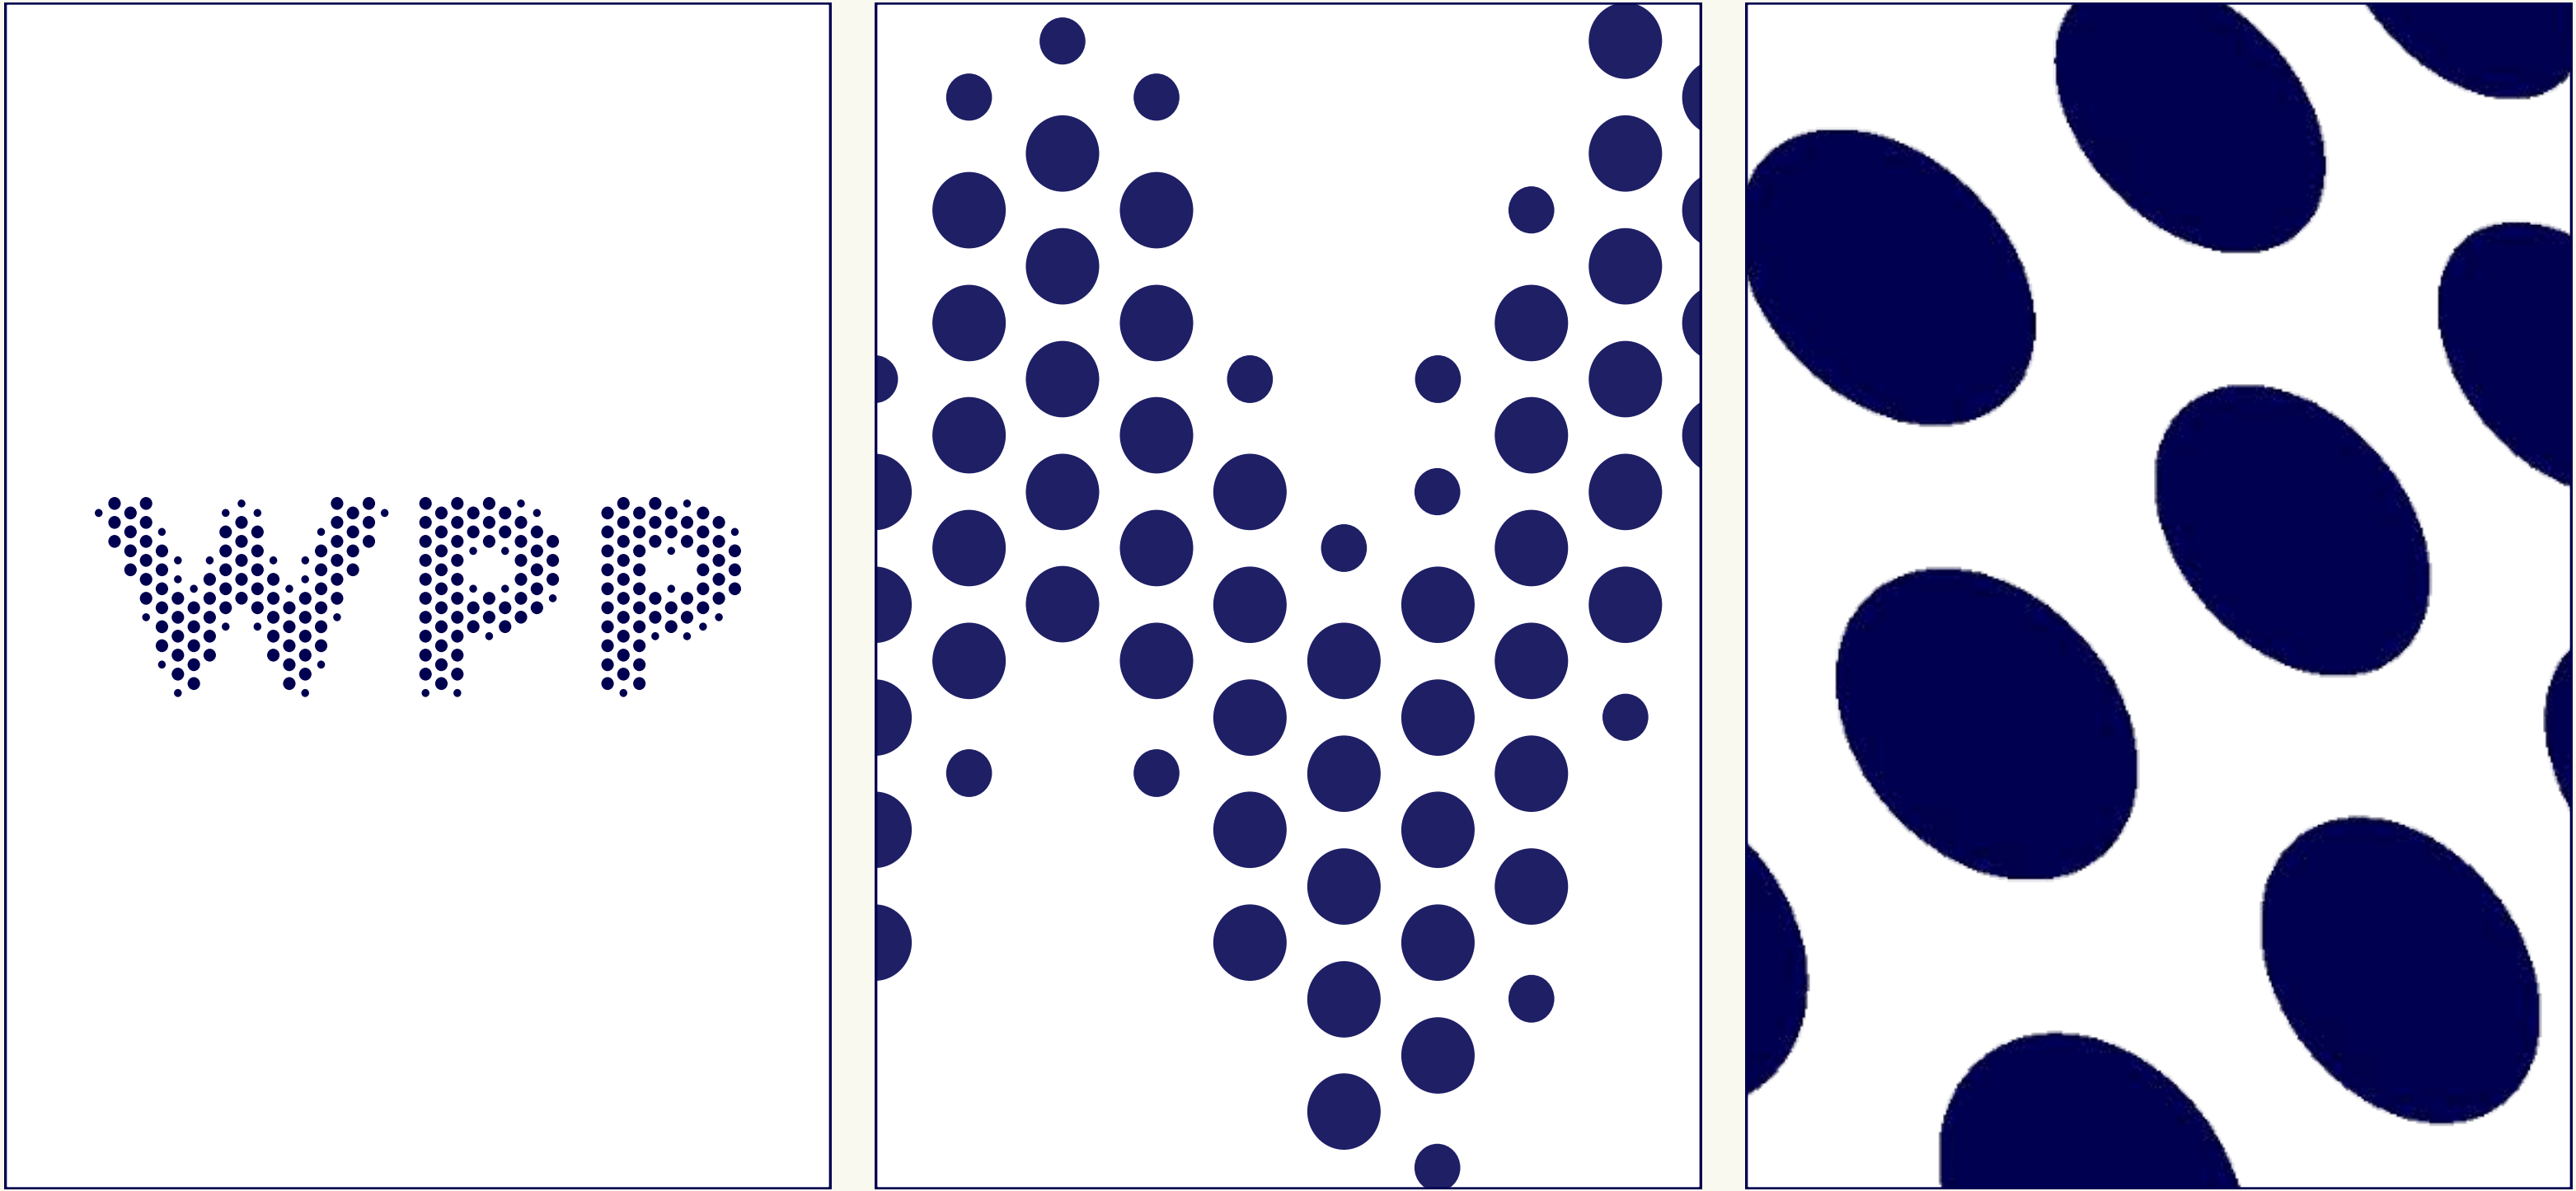

BULLET POINT

The dot
Scale from micro to macro

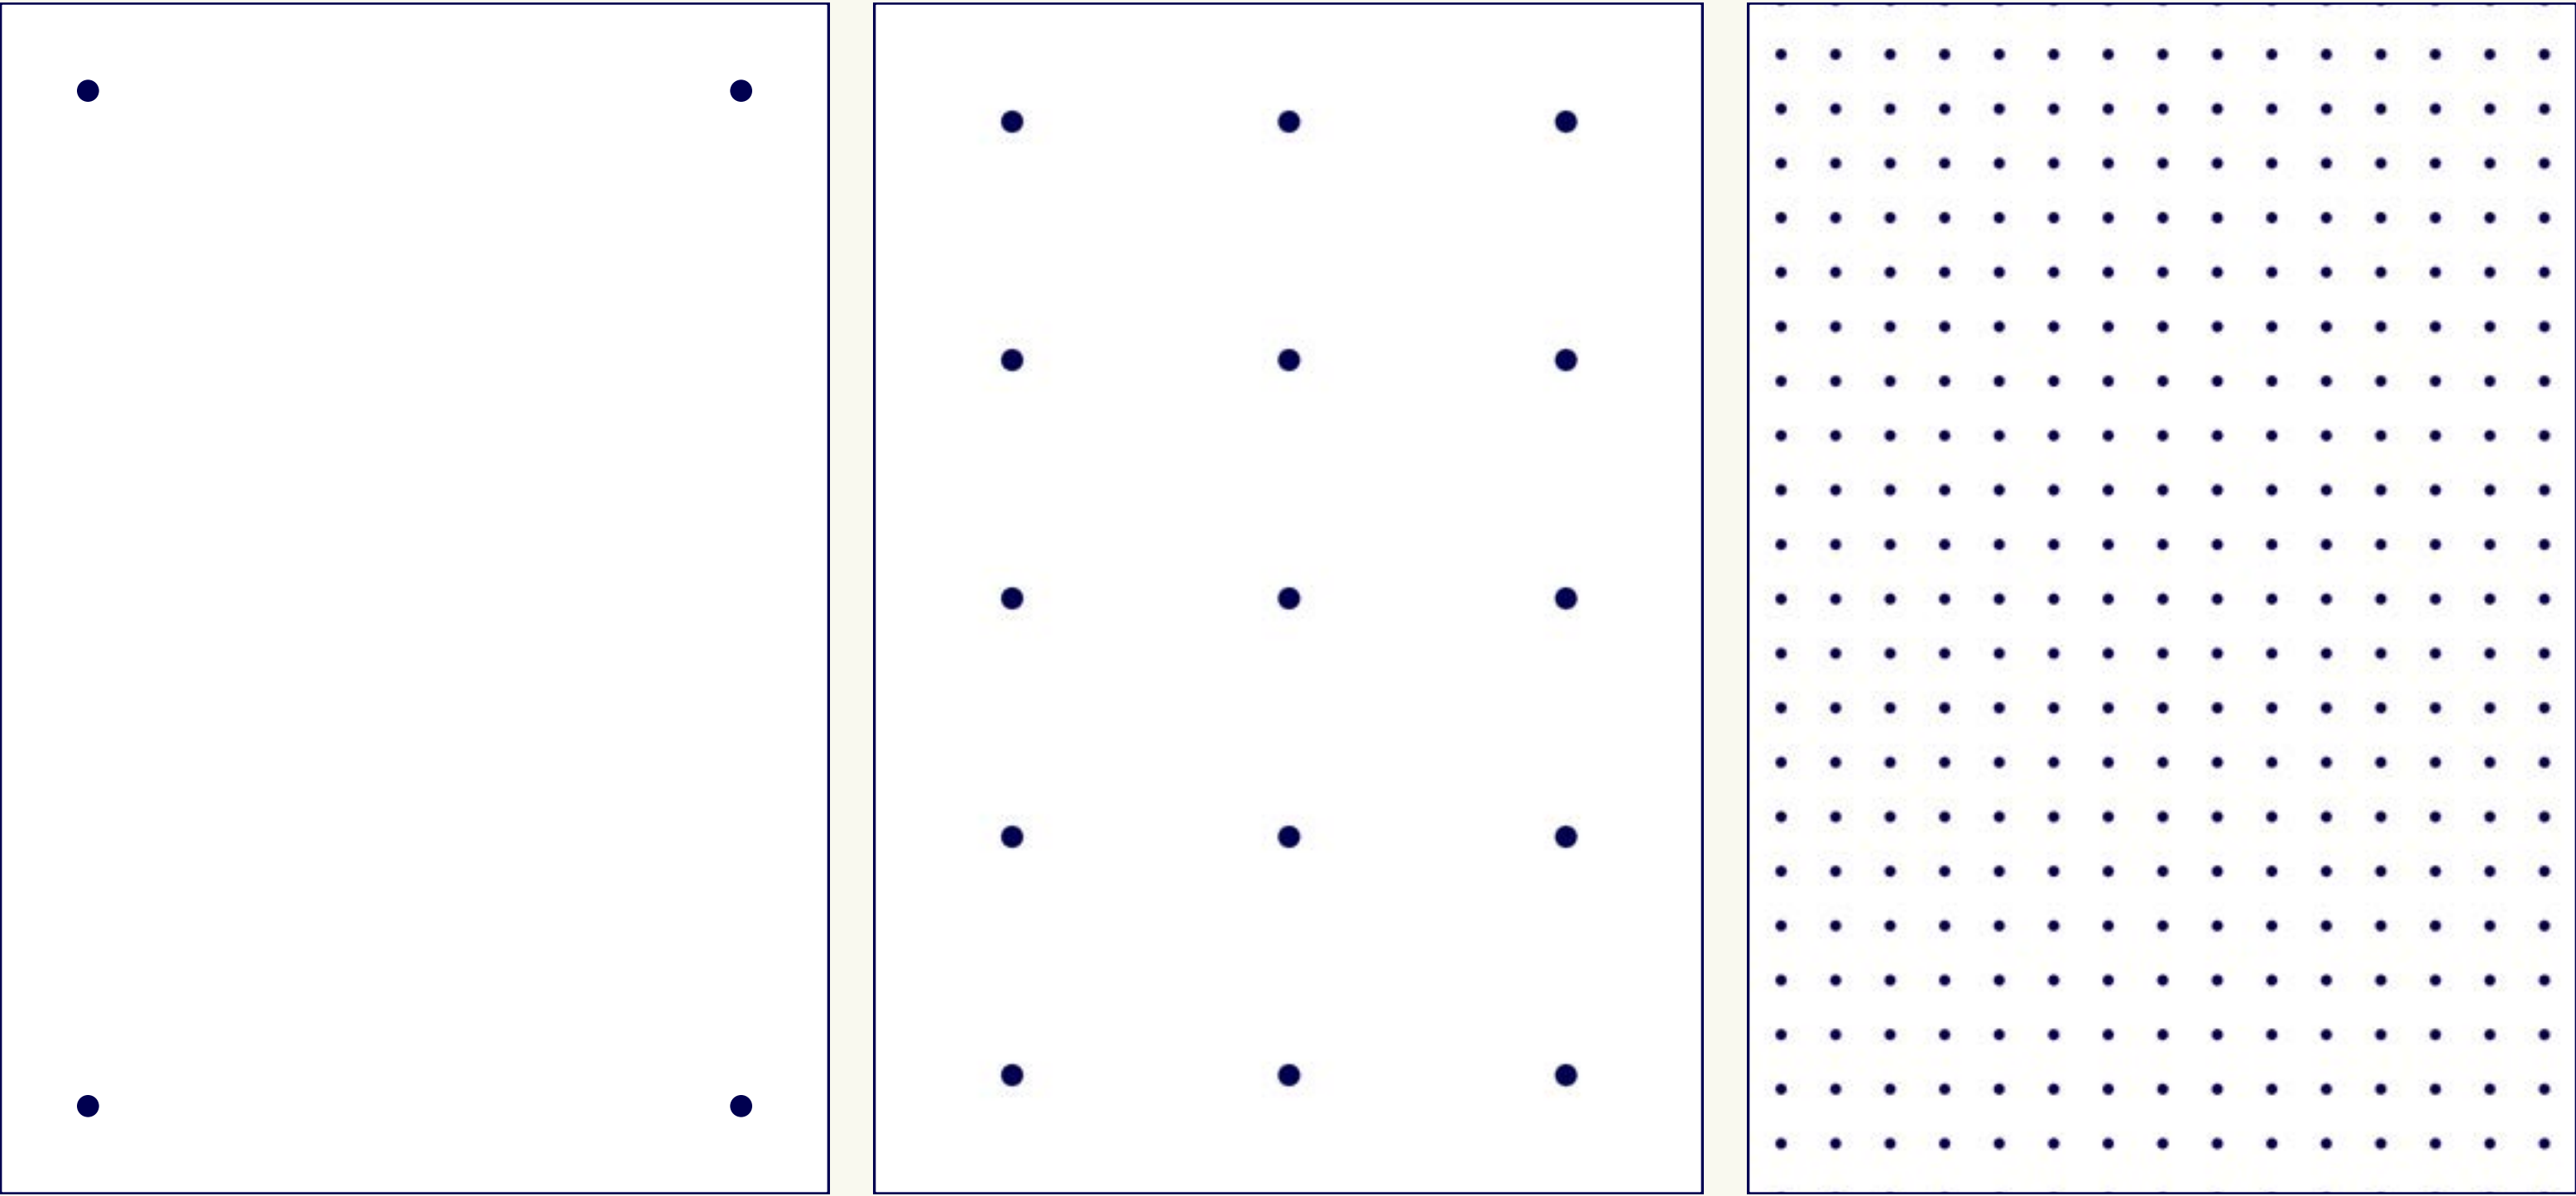

We can also use it as our expression. We scale them from micro to macro for a wide range of expression. We will never use a single circular shape that takes up more visual weight than the canvas.

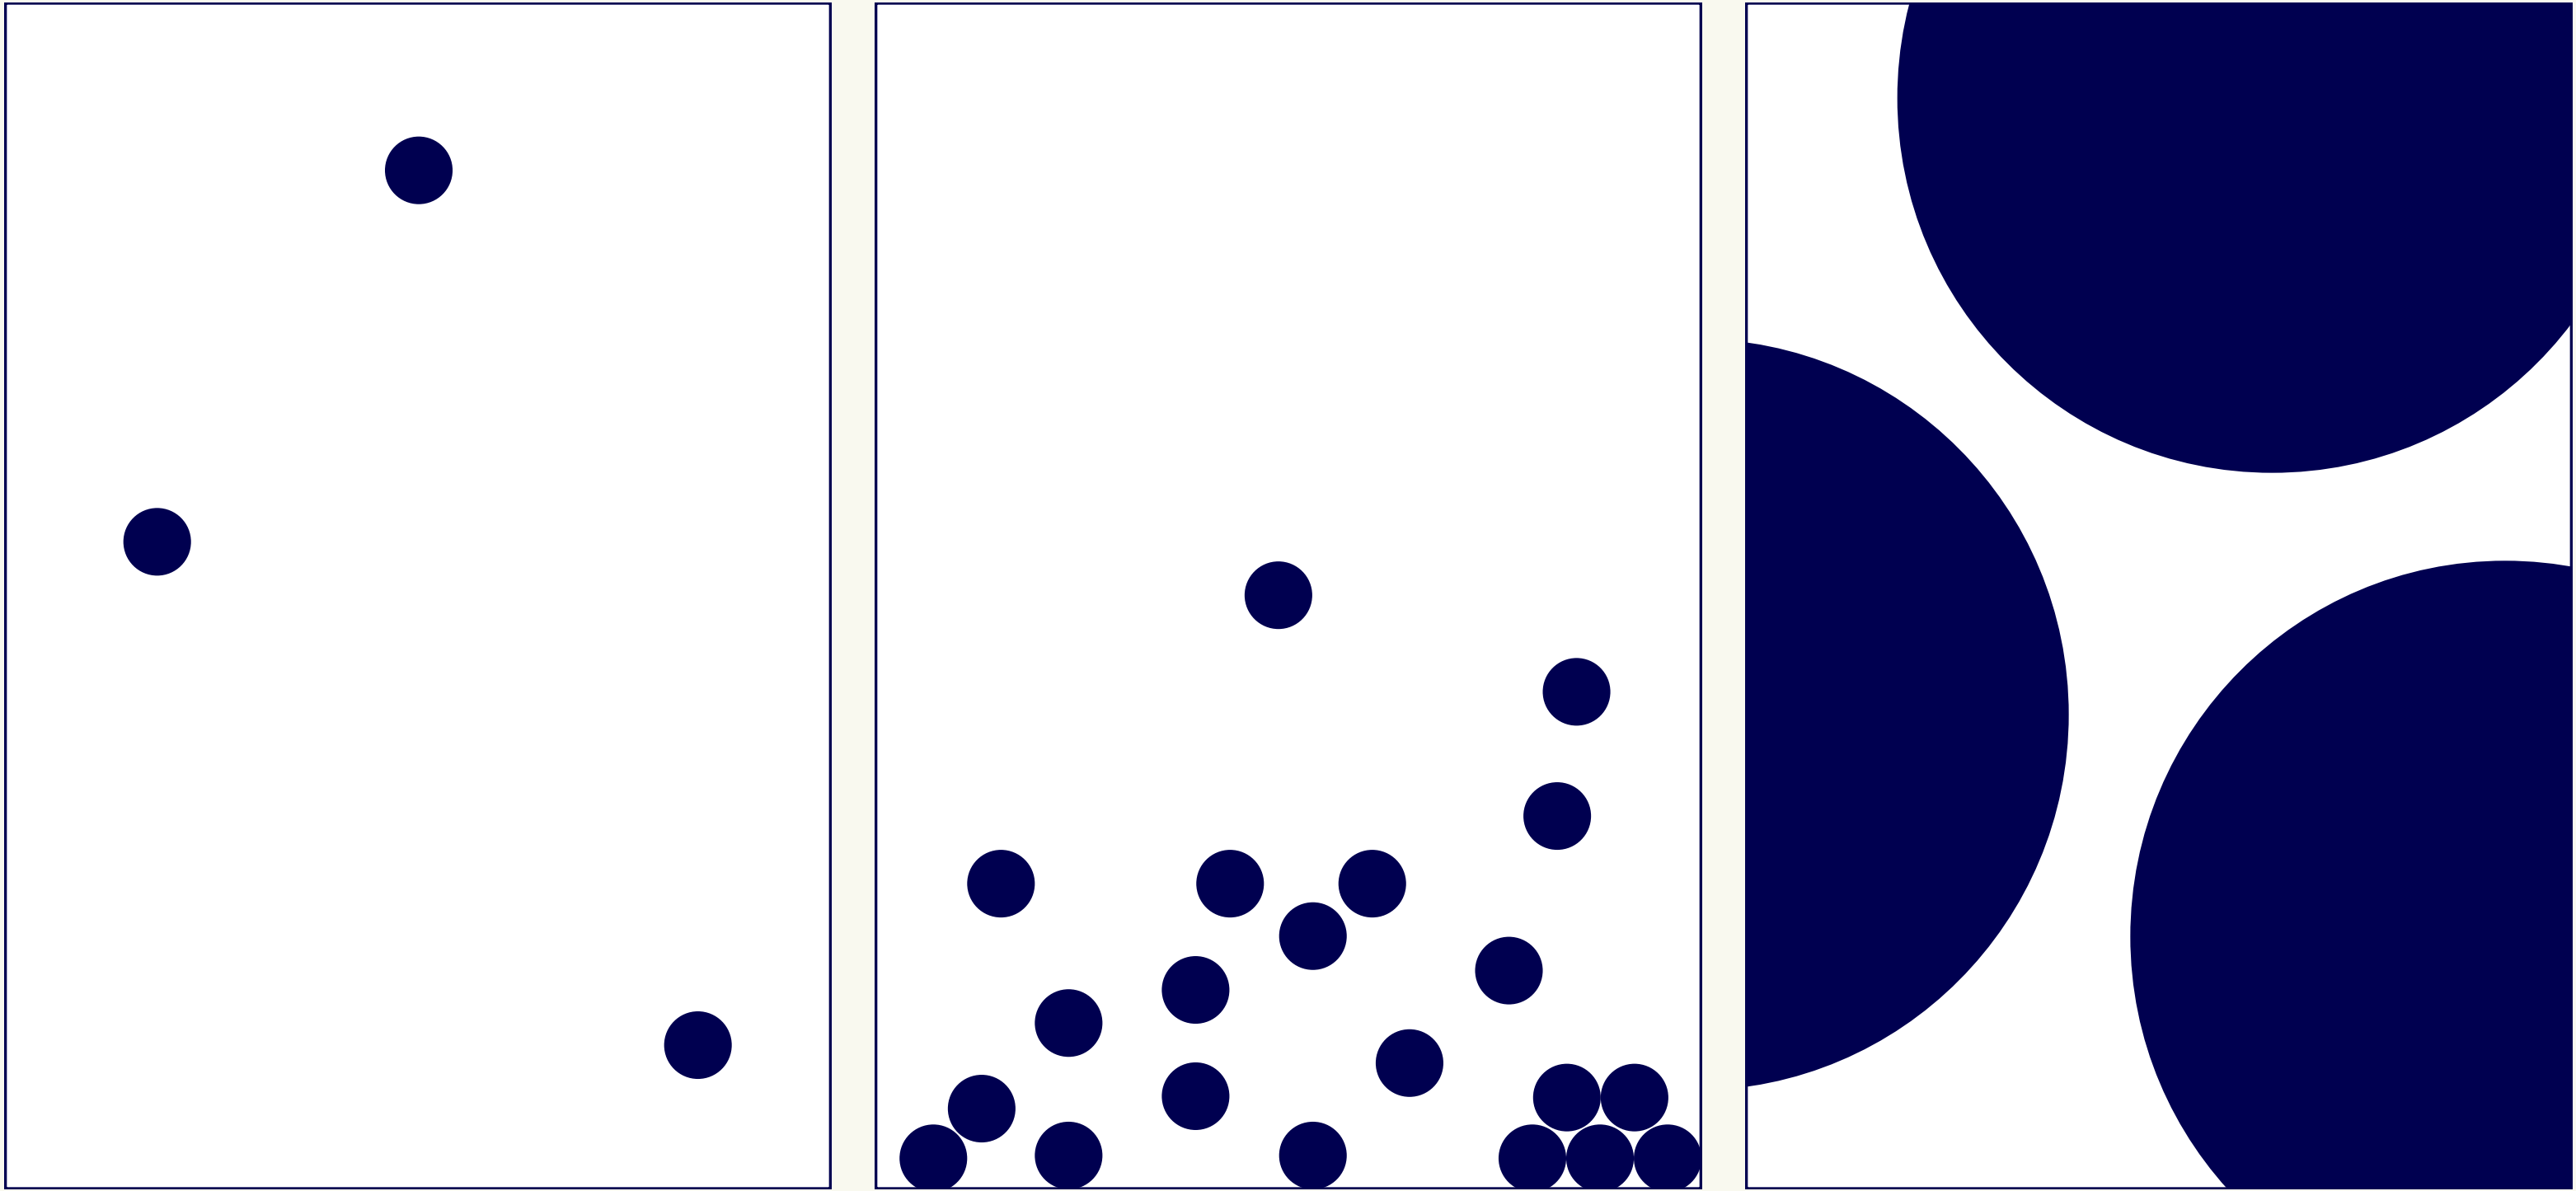

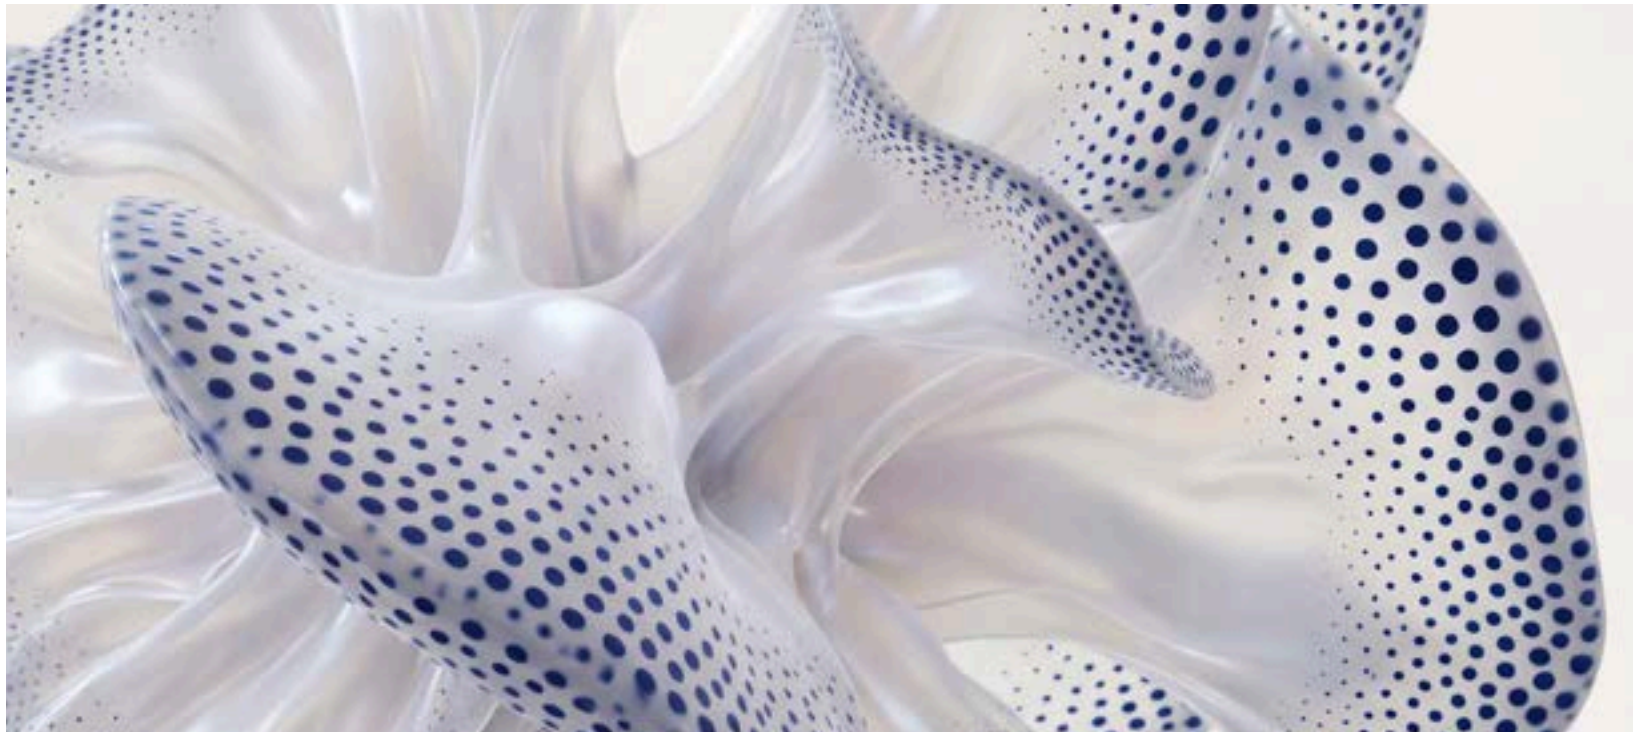

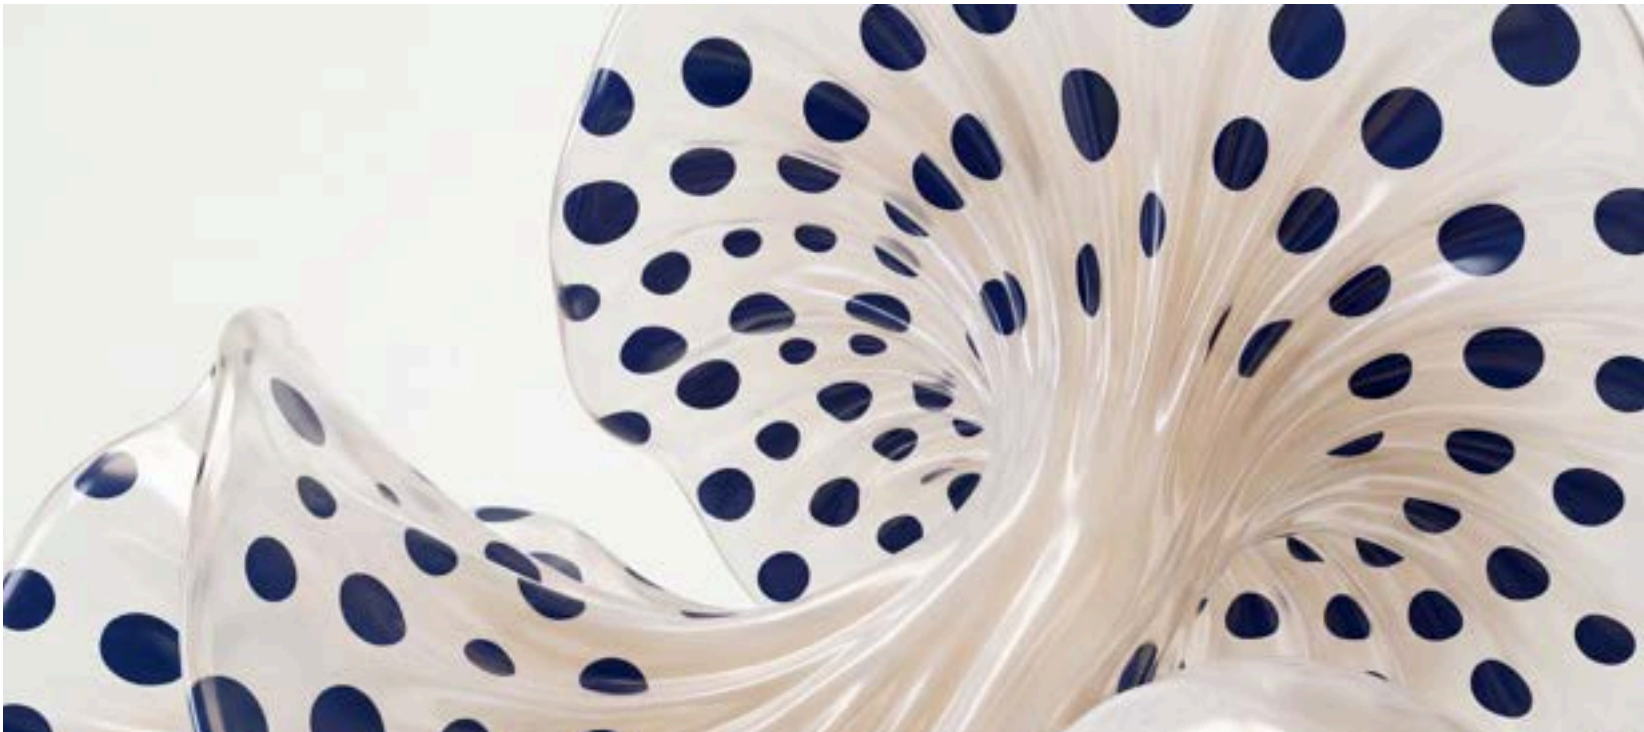

The dot
Gridded dot

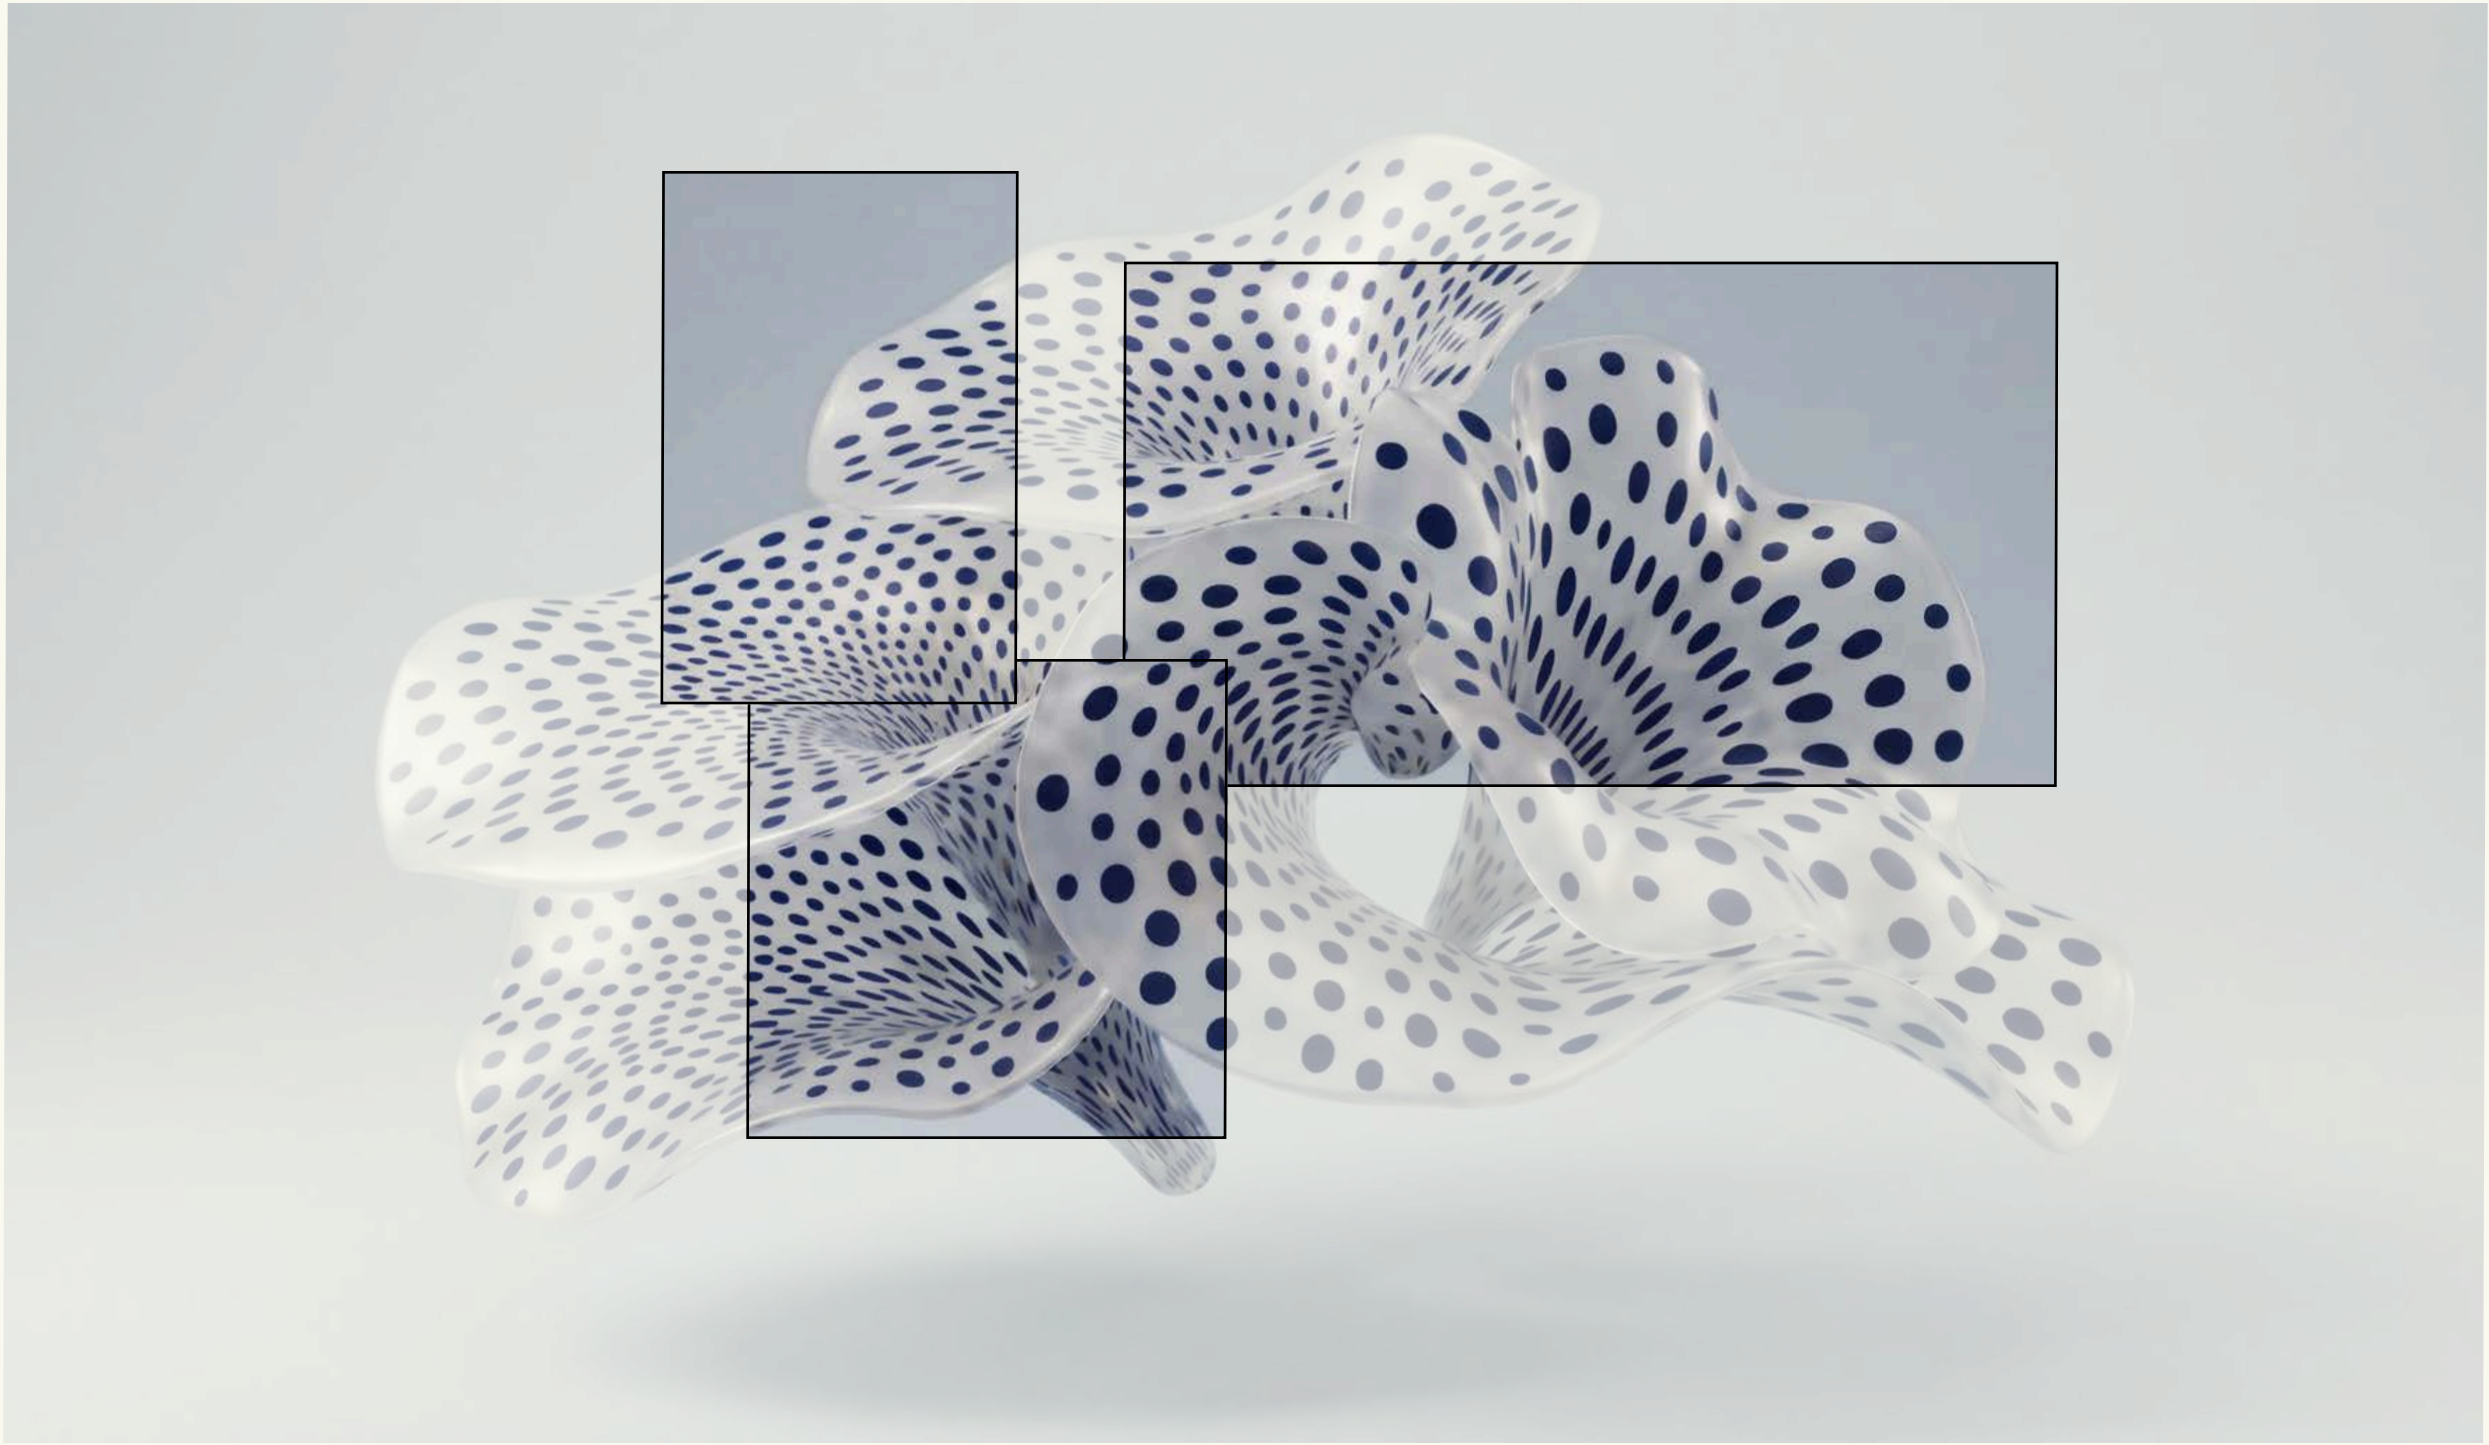

Or we use the dots in a stricter and gridded manner. This is often used with smaller dots in a symmetrical layout.

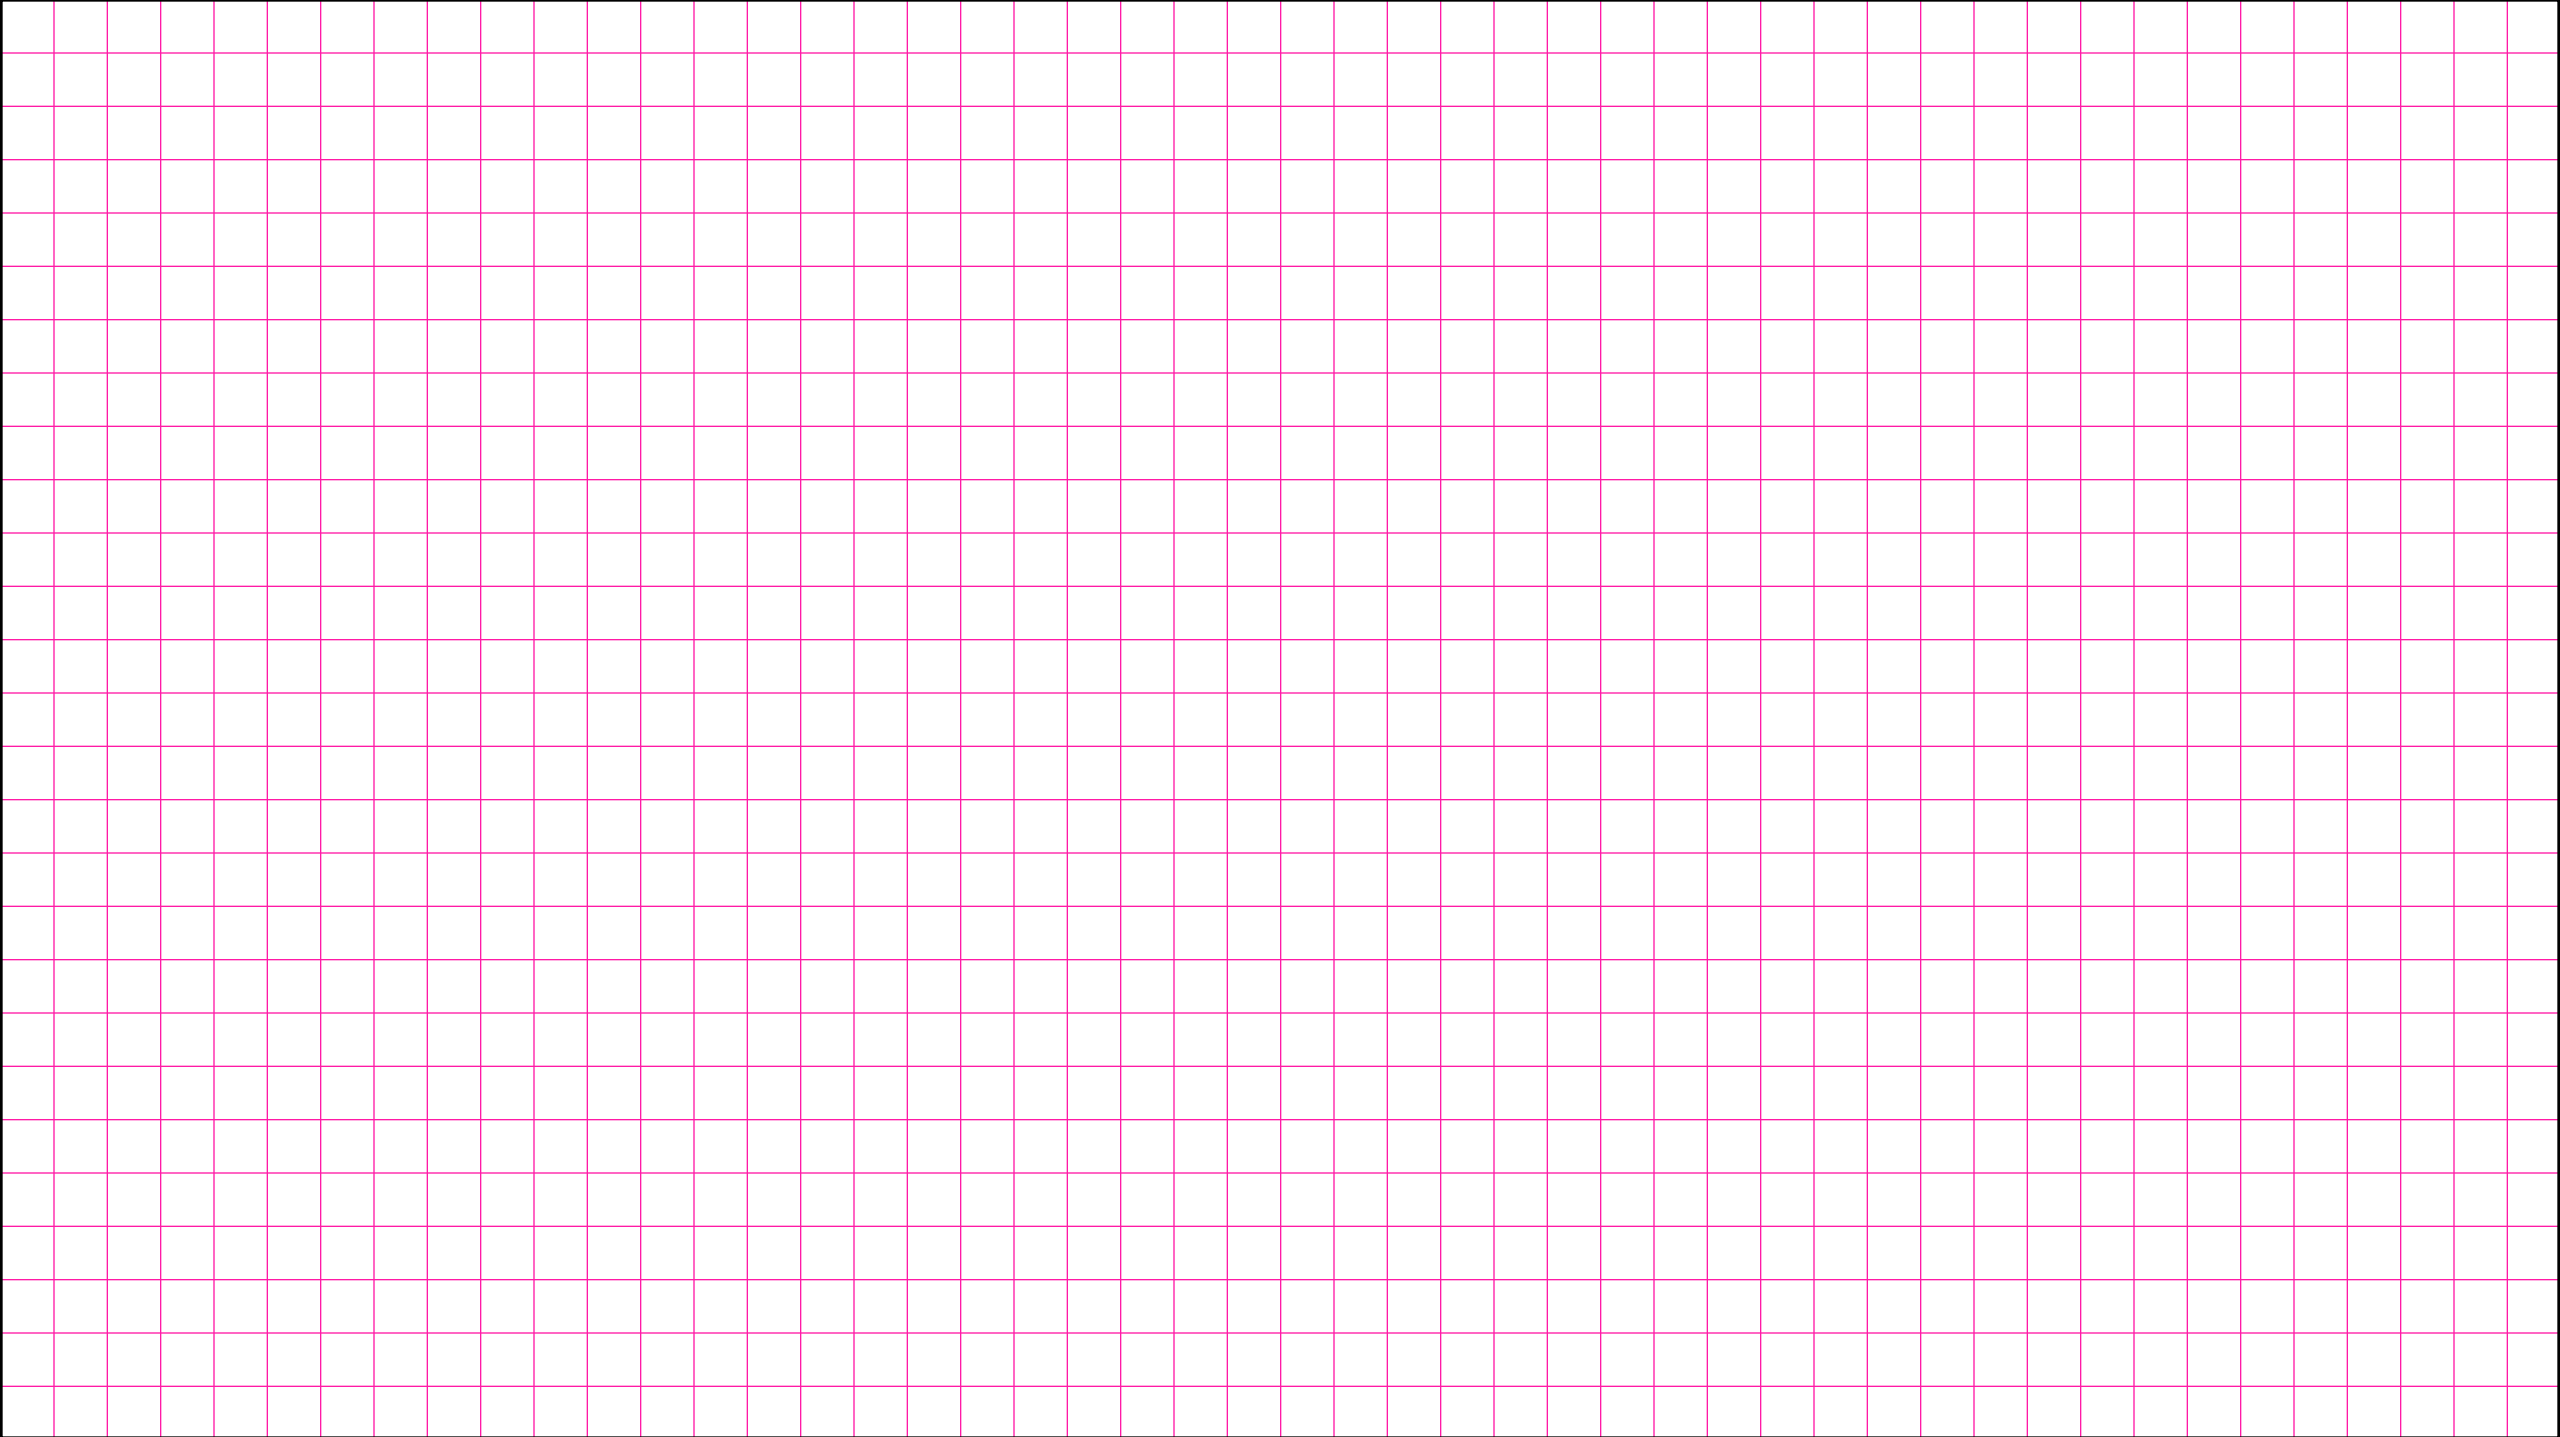

REIMAGINED IMAGERY

LAYOUT

1920 × 1080
16 : 9
Our most used format uses 40px square grid using 40px margins and 40px column space.
